		1700	Lines to Rear Div and to all Bdes except 46 Bde	DGH
		1730	C.O. and Adjt attend Div Comd's "O" Group	DGH
		1835	Line through to 46 Bde - this is the important line tonight as with 46 Bde as the only Bde forward. Linesmen's post est midway on the line. No lines from Corps as yet.	DGH
		2105	Corps line in O.K. to Main Div but not able to do anything for Rear	DGH
	26		Signal Centre now est at MEERGESTEL (2330) since last night and all Bde lines (except, of course, 6 GDS) from there.	DGH
		0800	Bdes on the move again with one line sec full out coping. New Bde locations not too difficult to link up from Sig Centre	DGH
		1100	CSO visits C.O. and discusses several points - chiefly, however, the line situation and the Corps difficulties at the present time. All wireless O.K. throughout the day	DGH
		1400	C.O. and Adjt visit all three Bdes, finding out future plans etc	DGH
OIRSCHOT	27	0915	Main Div HQ moves to HILVARENBEEK (195240) arriving approx 1030 but Rear HQ remaining in OIRSCHOT until tomorrow. Signal centre remaining in present location to cope with Rear Div and 6 GDS who have moved up quite near and are themselves laying in to the Sig Centre but chiefly with 46 Bde, where new HQ on the outskirts of TILBURG means a very long line.	DGH
		1200	TILBURG captured by 15th (Scottish) Div	DGH
HILVARENBEEK		1800	After a day, like so many others at present, of changed intentions on the part of the Bdes, apart from the above lines, Main Div has Sig Centre line, line to 44 and 227 Bdes (with lateral between), 141 RAC (crocodiles under comd), and lateral to 4 Armd Bde. Signal Centre also has 131 Fd and 181 Fd. Not been possible to do more than one SC line - considerable delays unavoidable. No Corps line as yet. Rear Div have old Corps line. Recce and 1 Mx Wireless O.K. throughout day, some slight interference on R/T Comd net from some "Q" stuff of 7 Armd Div. Corps Comd R/T net nothing great at present, not a very good frequency	DGH DGH
	28	0900	OC 1 Coy proceeds to TILBURG to investigate civil comms but exchange etc demolished	DGH
		1300	Main Div HQ moves into WILHELMINA PARK, TILBURG, followed by Rear Div HQ to 168320. Some purely local short extensions laid -	DGH

TILBURG		1500 1700	all Bdes within easy reach of Main Div HQ. Rear Div helped out by Corps lines (which arrive at approx 1800 hrs) CSO 12 Corps visits CO. Information received that the Div is moving back on to the 8 Corps front East of Helmond at first light in the morning to counteract German thrust against 7 U.S. Armd Div. 44 and 227 Bdes already away, followed by 6 GDS TK BDE.	DGH DGH
HELMOND	29	0600 1030 1100 1900	Main and Rear Div HQ's move out of TILBURG to HELMOND arriving approx 1030 hrs. Corps nets (except to Rear Corps as the Div is being administered by 12 Corps up till 31 Oct) net satisfactorily to 8 Corps. Main Div at 565215 and Rear Div 545211 CSO 8 Corps visits C.O. followed by 8 Corps lines officers. Most helpful with line assistance but O.C. 1 Coy on ahead in the morning has much of it arranged already. Wireless excellent throughout a day of rather feverish line activity - the evening finds lines to all Bdes (44 through 227) including 6 Gds Tk Bde, line to 11 Armd Div, 7 U.S. Armd Div, two lines to Rear Div, Recce, line to Main Corps and to Rear Corps Air raid over HELMOND. Slight casualties at Rear Div HQ, only rather serious casualty among Sigs personnel being 1 cipher sgt evacuated with cuts from anti-personnel bombs. This will refresh in the minds of all ranks the still very necessary slit-trench being dug on arrival in a new location.	DGH DGH DGH
HELMOND ZOMEREN	30	0900 1130 1300	OC 1 Coy and usual train of line section personnel leave for 7 U.S. Armd Div area, which 15 (S) Div is today taking over. To ascertain line-layout and commence new Div lines. Main Div HQ moves to ZOMEREN (598108) arriving at approx 1245 hrs, followed in the afternoon by Rear Div HQ to 586120. Wireless excellent throughout the move. On arrival here, a complete HSSU FCP is found to be working, having been handed on to us, as it were, by 7 U.S. Armd Div, who left without even giving them the day's routines. Signal Centre established at ASTEN (6113) and together with that and 8 Corps "SWAN" Signal Centre in DEURNE (6419) today's line layout makes good progress. At the end of the day there is a most comprehensive layout to everyone except 1 Middlesex and nothing to Rear Corps. One line only to Main Corps - lateral to 7 US Armd Div, but not to 11 Armd Div as expected. Some of the officers in the HQ buildings for first time - extensions both telephone and W/T satisfactory	DGH DGH DGH

"C" Sec (LT RADWAY) sick - section temporarily under comd LT STEARS and engaged today on further consolidation of yesterday's line layout (sec line diagram issued as at 1500 hrs today). 			Line situation as normal in all ops - a certain number of faults throughout the day and the situation complicated by both 46 &	

NIJMEGEN		1430	227 Bdes, the two fwd bdes in Phase I of the op, employing Tac HQs and also 44 Bde later in the day and 6 Gds. CO visits Sig Centre and confers with OC 1 Coy, who is already pushing new lines fwd from Sig Centre - traffic & state of roads the chief difficulties - Tac 44 and 227 very hard to reach with line by nightfall	DGH
		1800	Wireless situation worsening rapidly with very considerable interference on practically every net - Div Comd especially affected. Step up sent out but results far from satisfactory	DGH
		2000	CO departs in Armd Car to endeavour to fix matters with a step-up	DGH
NIJMEGEN	9	0200	GOC leaves for ACV and spends night there - CO with him most of the time. Wireless situation not good throughout night	DGH

		0830	Div Recce party leaves and recces GROESBEEK (7555) and KRANENBURG (7756) area for move of Main Div HQ - subsequently cancelled for today at any rate	DGH
		0900	- onwards. Bde Tac HQs constantly moving about - quite impossible to follow them up with lines - due to state of roads and traffic blockers but wireless greatly improved throughout day	DGH
		1400	CO visits all Bdes at their Tac HQs - has to walk last bit due to road conditions	DGH
		1500	Sec Sgt "A" Sec out to intermediate position as last night had Sig Centre with two step-ups - the ACV and spare 12 set CV - but night shows that conditions greatly different from last night - step up only very occasionally and all stns remain through	DGH
		2200	directly to control, strengths having only dropped to a good R3 and ranges increased	DGH
	10	1000	A very similar day to yesterday - line sections not possible to catch up to Bde Tac HQ's except 6 Gds Bde, who are linked on to 46 Bde Tac	
		1800	Wireless position satisfactory throughout day but now beginning to deteriorate again as on previous night - step up not of great avail	DGH
		1900	CAPT W.D. TONER rejoins Unit from 10 (Cdn) General Hospital	DGH
		2300	Wireless comms very much improved again after being most difficult - explanation of such difficulty over such reasonable ranges quite baffling, but comms one way or another have been maintained throughout	DGH

NIJMEGEN	11	0930	Main Div HQ (Rear Div HQ remains for the present) leaves for GERMANY and arrives new location (NUTTERDEN 853558) at approx 1230 hrs. As an original member of this Division I wish to say this night and trust that it may not be considered frivolous "The mills of God grind slow, but they grind exceeding small"	DGH
GERMANY NUTTERDEN		1600	Lines through to 44, 46, 227, Recce - quads to Corps Sig Centre in flooded KRANENBURG - but only one line thence to Corps - not very satisfactory	DGH
		1900	R/T Comd net closed partially - 44, 46, 227 off the group for the night - otherwise all comms OK	DGH
	12	0900	Extreme difficulty today, owing to heavy flooding, in reaching Rear Div still in NIJMEGEN - only 3 tonners possible for DRW and they strictly limited	DGH
		1000	46 Bde sent out "Jock" column using Div Comd R/T alternate freq	DGH
NUTTERDEN		1400	Lines laid to 130 D.I.D. and 8 T.C.P. (for Corps)	DGH
		1600	Sig Centre open at 882560 - lines laid from there to 46 Bde and Recce but quad from Main Div HQ - Sig Centre not completed until 2320 hrs	DGH
		2200	Wireless situation reasonably good, in spite of heavy but intermittent interference throughout day, including to Rear Div - just as well this, as both Corps lines faulty throughout evening and these were the only way of reaching Rear Div by line	DGH
	13	0700	44 Bde in support of 43 Div - netted satisfactorily on 43 Div R/T Comd net only. 2 HCR now no longer under comd 15 Div	DGH
		1000	CO and Adjt leave on routine visits to 44, 46, 227, 6 Gds, Recce, 1 Mx and Signal Centre, and also inspect progress on build-up of line layout (continued throughout day) on existing structure	DGH
		1500	CO and Adjt leave again for 44 Bde - they are now in support of 53 Div - same procedure as this morning with 43 Div and have suffered (Sig Section) heavily in this operation in both men and vehs and despite assistance from Sigs HQ today in both personnel and eqpt.	DGH
NUTTERDEN	14	0900	Div Recce party out to CLEVE and arrange new HQ in the BARRACKS square (8855)	DGH
		1430	Main Div HQ moves as indicated above, arriving at approx 1600 hrs - line situation reasonable as only 46 Bde have moved today and existing Sig Centre stands for all concerned - new lines to 46 Bde and Corps arrive shortly after Div HQ established	DGH
CLEVE		2100	Wireless in new area satisfactory fwd but becoming rather stretched in rear - to both Corps (on R/T) and to Rear Div but comms maintained	DGH

	15	0900	- onwards. A day of usual work, wireless remaining steady throughout - 46 Bde under op comd of 3 Cdn Div at 1800 hrs & satisfactorily netted (after some delay) on their R/T net only. Corps C/W net split differently (we are now on C3A net with 43 and G.A.D.). Lines today primarily concerned with readjustments necessary for Rear Div who are moving tonight to the previous location of Main Div in NUTTERDEN	DGH
CLEVE		1900	CR Sigs attends Div Comd "O" Group conference	DGH
	16	0630 1200	Rear Div HQ arrives at former location Main Div HQ in NUTTERDEN. Certain changes in line layout necessitated by this, culminating in line diagram issued as at 1200 hrs Certain other minor changes later in the day, especially with the CDN lines	DGH
		1500	CO and Adjt pay routine visit to 46 Bde	DGH
		1900	LT KNOTT of 44 Bde Sig Sec brings to CR Sigs Office certain extremely important circuit diagrams etc discovered in the wrecked CLEVE post office. Forwarded forthwith to CSO 30 Corps	DGH
	17	0900	A day of preparation for op "SPIDER" (44 Bde tomorrow to capture GOCH) and lines laid in readiness - Sig Centre established (1500 hrs) at 46 Bde location. Wireless reasonable throughout day, but fluctuating on Corps R/T net and Div Medical net (especially)	DGH
		1400	CR Sigs addresses all officers WO's & Sgts on behaviour in Germany and on committing currency offences & selling W.D. property	DGH
CLEVE	18	0945 1000	Church parade - CR Sigs and Adjt attend - but turnout good Line section busy on lines fwd for op SPIDER (assisted by 7 bodies loaned from other Divs, in view of our heavy linemen casualties in this op) and beyond to the SOUTH.	DGH
			Div Recce party out but move proposed for today postponed until tomorrow. Lengthy Sig Centre - 44 Bde line completed by 1510 hrs	DGH
		1200	CSO 2 Cdn Corps and A/CSO visit CR Sigs	DGH
		1600	CR Sigs pays routine visit to 44 Bde in their new location	DGH
	19	0900	Signal Centre closes at former 46 Bde location and returns to Main Div to take over lines there on move of Main Div	DGH
		1130	Main Div HQ moves to BEDBURG (928527) and arrives at approx 1230 hrs, cheek by jowl with Main Div HQ 43 Div, accommodation therefore rather tight, but fitted in and, surprisingly enough, no mutual wireless interference	DGH
BEDBURG		1700	All normal lines completed by this hour and comms situation OK either direct or via Signal Centre later in rear - also alternative routings via 43 Div to whom a quad has been laid. Wireless situation also satisfactory	DGH

		1730	CR Sigs and Adjt visit CR Sigs 43 Div and have tea in their Mess	DGH
	20	0900	A day of considerable trouble with wireless interference - chiefly 227 Bde (on same freq as CRA 53 Div, who have made a change) and Recce Regt. 227 eventually cleared but Div Comd alt freq has to be loaned to Recce for daytime working and their allotted one used for night-time only. Line layout adjusted (see line diagram issued as at 1300 hrs) so that strappings may be made tomorrow morning and Signal Centre brought fwd to Div for use in Bde area	DGH
		1300		DGH
		1900	OC 3 Coy arrives Main Div HQ to take over 2 i/c from OC 1 Coy proceeding on leave in the morning	DGH

PFALZDORF	22	0930	Main Div HQ moves to PFALZDORF (909458) arriving at approx 1100 hrs followed in the afternoon by Rear Div HQ to near DECKERSHOF (917468) 3 lines waiting for Rear Div on their arrival and all other lines to all 5 Bdes etc very satisfactorily adjusted at an early hour of the day - a great deal of hard work done by the linesmen. Wireless OK throughout day except MED net which is rather beaten by distance at present	DGH
		1610		DGH
PFALZDORF	23	1000	News received this day of the impending withdrawal of the Div to TILBURG for rest and relief here by G.A. Div and 3 (Br) Div. Certain line alterations today to accommodate adv parties etc of Gds Armd. 214 Bde ceases to be under command at 1700 hrs	DGH

These 4 days not unhampered, as smoke necessary for daylight line-laying and the programme altered about extremely inconveniently several times	DGH DGH
		2045	CR Sigs leaves for Bank Control and other fwd areas	
		2300	Wireless opens - CV1 OK all round immediately (44, 46, 227, 4 Armd, Recce, 1 Mx, Tac Div HQ & LO at 51 Div) also all links to Corps - trouble on CV2 - set goes faulty. Bdes not up (except 4 Armd & Recce Regt) but 19 set opens and Bdes called up. CV7 OK except 153 which is being relayed through 193 - CV8 OK except for 46 who were late on the air - CV15 OK except 399 Coy who were late on the draw - by 2359 all culprits dealt with and all comms OK - R5 all round - distances very reasonable. 		1430	15 (S) Div Main moves up and joins Tac HQ which ceases to exist to BONGERTSHOF (091428) arriving at approx 1600 hrs - line layout suitably adjusted and lines shortly through across the river to 46 Tac and 227 Tac HQs. Recce party has already been out across the RHINE this afternoon and Main Div is crossing tomorrow morning	DGH
		1800		DGH
BONGERTSHOF	26	1000	Main Div HQ all ready for move across RHINE but move delayed due to timings over the bridges until 1200 hrs approx when Div HQ moves out and arrives at new location (BERGEN 140460) at approx 1545 hrs	DGH
BERGEN		1600	Signal centre in position prior to arrival of Div to take on lines and lines through shortly - 2 to Rear Div, 46, 227 Bdes - lateral between 46 & 227 and Recce from 227. No lines being laid to either 4 Armd or 157 Bdes as these are both passing from comd tomorrow, but parties out on 44 Bde line, which is a very considerable lay, especially in view of the congested state of the roads	
		2300	The above also caused a good deal of trouble with line faults. Wireless no trouble throughout day - except for a very temporary breakdown of CV8 - CV13 took comd of the group until CV8 on the air again	DGH
BERGEN	27	0900	- onwards. A day of build-up on lines, exceedingly hampered by road congestion but apart from 44 Bde, not through until late evening, all fms through as per schedule - Sig Centre established in 46/227 area. Two bns under Div comd at various times of day (2 A&SH & 6 HLI of 52 Div) but 2 A&SH revert to own 227 Bde and 6 HLI go to 46 Bde	DGH

	28	0100	Div Comd R/T net freq changes to 2064 Kc/s (former 46 Bde comd) & 46 to borrowed freq of 2544 Kc/s (original Main of 2260 Kc/s being recalled	DGH

BERGEN		0900	A morning of little interest - building up of line layout first from Sig Centre - line through now from Main Div HQ - RASC FWD DUMP	DGH
		1430	CR Sigs and Adjt pay routine to all three Bdes - 44, 46 & 227 Bdes and do not return until 1800 hrs approx	DGH
	29	0100	All borrowed freqs for op (except 2544 Kc/s acquired yesterday when this first began) returned and Div now back on normal Inf List "A" - not convenient as our own freqs seem to have the whole world also working on them at present - hence the necessity for keeping the borrowed 2544 - given to 46 Bde and the 46 Bde freq of 2064 Kc/s now used for Div Comd R/T net	DGH
		1000	Main Div HQ moves to area HALSHORSER (182501) and Rear Div HQ moves across RHINE to VISSEL (137453) both arriving new location approx 1130 hrs. Sig Centre remains firm and line layout most satisfactorily built up throughout day around this. Wireless very little in use at present - present op virtually over	DGH
HALSHORSER	30	0900	- onwards. A very much quieter day generally - line maintenance, set maintenance and make and mend	DGH
		1200	Issued line diagram as at 1200 hrs	DGH Appx
		1500	Last of borrowed freqs (2544 Kc/s mentioned yesterday) withdrawn by Corps. 46 Bde given former Div Comd freq in lieu	DGH

	31	1000	Another reasonably quiet day of maintenance etc	DGH
		1200	CR Sigs 52 (L) Div arrives and stays for lunch - that is our first real meeting with our original parent unit since the war began - only too few left now in either unit to whom the association means anything at all	DGH
		1500	CR Sigs and Adjt proceed on tour around Div area inspecting the building, maintenance etc of the line layout	DGH

Place	Date	Hour	Summary of Events and Information	References to Appendices
HALSHORSER	1	1000	Large-scale church parade - excellent turnout and the men looking very smart. Parade takes place for the first time in a German church (in HAMMINKELN).	DGH

	2	0900	Following changes in offr's appts - CAPT BLACK relinquishes HQ Coy and is posted to 1 Coy - proceeds to Rear Div as Signalmaster vice Lt PRINGLE who comes up to Main for Signalmaster's duties (CAPT ORR about to proceed on UK leave). CAPT TONER assumes comd of HQ Coy and the duties of Camp Comdt Main Div and relinquishes "A" Sec. LT SOUTAR (at present on UK leave) is appointed OC "A" Sec	DGH
		1500	CR Sigs proceeds to 46 Bde - arguments raging since submission of last monitoring report on 46 Bde Comd net!	DGH
		1800	Lecture by Mil Gov officer to offr's Main Div HQ (CR Sigs, Adj't, OC 1 Coy, OC HQ Coy attend). Adj't produces lists on these matters for all Secs	DGH Appx
HALSHORSER	3	1000	A day of preparations for moving tomorrow - Recce party out at Tac Div HQ for move fwd of Div HQ and 1 Bde (227 Bde) to take over from 155 Bde of 52 Div in RIESENBECK area. The remainder of the Div to concentrate in area EAST of BOCHOLT prior to returning into the line with 12 Corps	DGH
		1600	46 Bde and Recce move into a/m area - wrls comms OK but rather stretched while moving and for "Q" net at Rear Div - direct comms with Tac Div HQ (a distance of some 60 miles) OK after Tac Div static	DGH
		1830	Remainder of lines at Sig Centre strapped through to Rear Div, 227 Bde and Mx and Sig Centre brought in to Div	DGH
		2200	All preparations made for move at 0645 hrs tomorrow but plans suddenly changed - no move before 0900 hrs and 15 Div going under comd 8 Corps and proceeding to completely different area from that rec'd and planned for. Admin arrangements altered to	DGH

			suit - not much else can be done - recce party will contact ½ cable sec gone fwd earlier	
HALSHORSER	4	0900	Main Div HQ - 15 (S) Div now under comd 8 Corps. 6 Gds Armd Bde under comd 15 (S) Div and 15 (S) Recce Regt under comd 6	DGH
TECKLENBURG		2000	Airborne Div - moves to TECKLENBURG (051022) after making short halt at GREVEN (9188) arriving at approx 1930 hrs, having covered a distance of 87 miles	DGH
		2100	No lines being laid - at present the nearest Bde is over 20 miles away, with Rear Div HQ and remainder of Div still 60 miles away in the BOCHOLT area	DGH
			Wrls comms fairly good, considering extreme ranges - most serious problem being mutual interference between Div R/T Comd and 8 Corps C/W Comd - some changes will have to be made when the Div is more concentrated tomorrow	
TECKLENBURG	5	1000	A day of concentration of the remainder of the Div, with attention focused entirely on wrls comms which have really stood up to the strain very well and given good service over the ranges they have been asked to work. Certain frequency changes effected at this hour today, which have the effect of restoring the allotment completely to normal	DGH
		1730	The only line being laid in this area - Main Div - 227 Bde now completed. A difficult proposition due to the congestion on the roads	DGH
LAVELSLOH	6	1000	Main Div HQ followed by Rear Div HQ moves to LAVELSLOH (686254) arriving at approx 1915 hrs - Rear Div not till approx 2200 hrs	DGH
		2200	No Bdes in as yet, so no lines. No corps lines through there under way. Quad ready for Rear Div to pick up on arrival. Wireless comms almost impossible tonight - Corps nets OK - but Div nets, with Bdes on move with only short aerals not through at all satisfactorily. Div Comd R/T even with two step-ups out not through at all - freq hopeless due to proximity of Rear Corps - Rear Div freq and set on loan to Recce Regt. This freq recalled but change of freq out of the question at present	DGH
LAVELSLOH	7	0800	Wrls situation greatly improved - interference much reduced - all stns OK - 44 Bde through step up in last location, but direct later as Bde nears this area and step up (ACV) recalled.	DGH
		0930	CR Sigs inspects cookhouse etc with ADMS - some rather unfavourable comments - these being attended to by OC HQ Coy	DGH
		1000	Lines to Bdes under way (PL possible for 227 Bde) and pairs Main Div - Main Corps - Rear Div - Rear Corps in last night and by	DGH
		1700	1700 hrs lines completed to all four Bdes (6 Gds Armd Bde under comd) and 1 Mx, 44 Bde the last Bde to arrive, moving to new HQ	

			by approx 1600 hrs. Lateral to 11 Armd Div also completed (by Corps)	
		1800	Adjt attends A/Q conference with OC Sigs Rear at Rear Div HQ	DGH
LAVELSLOH	8	0900	A day of maintenance, both vehs and equipment, and of baths. Early morning patrols out today, 2 secs of Div Sigs, hunting Germans in the surrounding woods - 3 prisoners brought back. Signalmaster, Cipher officer and lines officer were out on this ploy and there is to be another similar foray tomorrow morning	DGH
		1000	Church parade in village church - reasonably good attendance	DGH
		1700	Apart from a/m - a quiet day with most wrls lines closed, though Rear lines to Corps now open again, as Corps moved at approx 1500 hrs	DGH

		1415	CR Sigs and Adjt pay routine visits to all three Bdes, returning	DGH
		1730	at approx 1730 hrs	
HAGENBURG	10	1200	Main and Rear Div HQ move to HAGENBURG (068276) arriving at approx 1630 and 1730 hrs respectively. Main Div occupying the palace of the Prince of Schaumburg-Lippe, he and his entourage being turned out by the Div recce party.	DGH
		1830	Lines to Main Corps, Rear Div - Rear Corps, 227 Bde and a line from Main Corps - 46 Bde arranged through CSO channels, after a visit from the CSO after tea	DGH
		1945	CSO Sigs attends Div Comd "O" Gp conference Wrsls position fairly good, but interference on Div Comd R/T net and freq is being changed tomorrow morning to alt freq which is once again being recalled from on loan to Recce	DGH
	11	0700	Div Comd R/T net changes satisfactorily to alt freq, a big improvement, but Recce Regt takes over former freq in preference to their own	DGH
		1000	A/Q addresses all ranks on the subject of looting	DGH
		1030	Div HQ in a state of half-readiness for move, promised for mid-day but now somewhat postponed - 227 Bde making slower progress in front than anticipated	DGH
		1830	Main and Rear Div HQ move to FUHRBERG (434428) arriving at approx 2000 hrs. Wrsls OK all round. Corps line in but no Div lines laid except locals (incl 6 Gds Armd Bde & Rear Div)	DGH
FUHRBERG	12	1000	Main and Rear Div HQ move at very short notice to CELLE - just captured and ahead of Bdes! Main Div at 589501 in former palace of the wife of George I (arriving at approx 1230 hrs)	DGH

CELLE		1300	CR Sigs and Adjut visit concentration camp - sights too vile to be described	DGH
		1830	No lines being laid other than locals in this location 6 KOSB on Div Comd R/T net for task - also set with LO at 11 Armd Div. Wrls state OK but R/T comn extremely difficult to 44 Bde, still in yesterday's area and also to Corps	DGH
ESCHEDE	13	1030	Main Div HQ (followed in the afternoon by Rear Div HQ) moves to ESCHÉDE (695621) after harbouring for about 4 hrs, still in CELLE, but on the NORTH side of R. ALLER. Main Div HQ not into new location till approx 1700 hrs. Corps line in and short lines laid to all lower fmns except 44 Bde and 227 Bde. Wrls situation good tonight, after slight difficulty with Rear Div on today's moves	DGH DGH DGH
ESCHEDE	14	1000	One of the mornings so prevalent just now of starting by waiting for orders to move - wrls OK throughout and routine work proceeds apace - the amount of paper reaching this office now is very heavily on the increase	DGH
		1430	Main Div HQ <u>only</u> moves to HOSSERINGEN (807770) - a long and tedious journey for a short distance, arriving at approx 1830 hrs, leaving Rear Div HQ, 44 Bde & 6 Gds Bde in former area	DGH
HOSSERINGEN		2200	Wrls OK all round, except to Rear Div which is rather feeble on both nets - lines to 44 Bde, and from there to 227 Bde and Recce, and to 46 Bde, all reasonably short distances	DGH
HOSSERINGEN	15	1000	Open air church parade - not a very good attendance, probably due to the rather cold weather.
